Note on confidentialisation for Social Cohesion Survey 2017

The following data items have been altered in the publicly available dataset in order to maintain respondents' anonymity:

- **Postcode**: deleted.
- **ASGS classification**: 'Remote' and 'very remote' collapsed, in addition this category has been collapsed with 'outer regional' in South Australia, Western Australia and Tasmania. All of ACT is coded as "Major Cities of Australia".
- **Number of persons aged 18+ in the home:** All responses greater than 5 set to 5.
- **Number of landlines in the home:** Responses greater than 3 code to 3.
- **Age**: Continuous age variable deleted, but still include age groups (dem1a).
- **Country of Birth** (self, partner, mother and father): Collapse to 'Australia', 'United Kingdom' and 'Other'.
- **Year arrived in Australia**: Round off to nearest 5 years and bottom code to 1950 (i.e. all responses less than 1950 set to 1950).
- **1st language spoken**: Coded as 'English' and 'Other'.
- **Educational attainment**: 'Primary school' merged with 'Years 7-9' to form 'Less than year 10'.
- **Religion**: Responses collapsed to 'Catholic', 'Anglican', 'Other Christian', 'Other' and 'No religion'. Delete Christian denomination question (dem19).
- **Voting Intention**: Collapse 'Liberal', 'National' and 'Liberal/National' into one category and 'Independents', 'Family First' and 'Others' into another.
- **SEIFA score**: Bottom code all scores below 850 and top code all those above 1120 and round to the nearest 10.
